

ACCESS IMPROVEMENT

CONVERSATIONS, CONNECTIONS & RESOURCES

Once upon a time, a small group of quality referral enthusiasts had a conversation about improving Alberta's referral experience by collaborating with physicians, specialists, patients and IT solutions and eReferral was born. As time passed and conversations multiplied, this small group quickly came to realize that the many stories of access improvement from across Alberta should be shared and celebrated.

Our look has changed but our values are the same - we want to start the conversations, make the connections and develop the resources to improve patient access to care. If you'd like to share your access improvement, let us know!

BIG IDEAS FROM eREFERRAL

How to attach a Telus Wolf generated letter to eReferral

Most clinics in Alberta use WOLF EMR. Wolf has a library of forms, in which the Provincial Standard Hip and Knee Replacement Referral Form can be found. This form is identical to the form used in eReferral.

We have found a way to attach a Wolf-generated form to an eReferral. [READ MORE](#)

accessIMPROVEMENT aims to start the conversations, make the connections and share the resources that improve Alberta's referral experience. If you'd like to share your access improvement story, we'd like to spread the word. [GET IN TOUCH](#) with us to learn how.
